### TOUR 7. Florence of Stone and Fire – Palazzo Vecchio and Bargello

Florence is not just a city of beauty but also of character. Here, among ancient walls and jagged towers, art has always been a battle. Of ideas, of power, of vision.

At **Palazzo Vecchio**, every room holds the tension of a city that turned politics into art. You'll walk through the halls where the fate of the Republic was decided, beneath ceilings that speak of wars, alliances, and impossible dreams. And when you descend, the stone still speaks.

In the solemn quiet of the **Bargello**, once a prison, now a sanctuary of sculpture, the soul of Florence is carved in marble. Donatello, Michelangelo, Verrocchio—each work a gesture, a challenge, a spark of revolution. This is not just a visit. It's a journey into the bold, burning heart of Florence.

*Kindly note that the guided tour of Palazzo Vecchio and the standard entrance ticket do not include access to the Arnolfo Tower. The tower visit constitutes a separate experience and may be purchased independently, should guests wish to include it in their stay in Florence.*
